

SwedSec: Self-studies for specialists with webinars in English

Welcome

The training is aimed at those working as analysts, securities brokers, fund managers or similar. In short, it is aimed at those who face the challenge of passing SwedSec's licensing exam for specialists.

The estimated completion time is between 40 and 60 hours, depending on your study habits and prior knowledge.

Structure

Before the course begins, you should start by finding out which exam dates are available and at which locations in Sweden. In order to book a date, you will need an account and log-in details for SwedSec's online services. You will receive booking details, including time and location, after you have paid the exam fees to SwedSec.

Once you have registered for the preparatory training, you will get access to our training portal where you will also be able to access lecture materials and a diagnostic test. A few days later, you will receive course literature at the address provided when applying.

Once you have carried out the diagnostic test, you will find out which areas you need to focus on during your studies. In order to get the most out of the coming webinars, you will have the opportunity to e-mail the lecturer to discuss your focus areas.

Self-studies are combined with three webinars led by our subject experts.

Contents

The webinars are divided up into the following areas:

1. Financial markets
2. Economic analysis
3. Ethics and regulations

During your studies, you can ask questions or discuss training content with our subject experts via our study portal.

Course literature:

- The Central Bank of Sweden: The Swedish Financial Market (annually)
- Formulae
- Lecture materials
- Hans Byström "*Finance: Markets, Instruments & Investments*" Third edition (ISBN 9789144096025)
